## Technical Experience

- By **default** I'm **fluent** in **HTML5** and **CSS3**.
- I can use **XD**, Photoshop, **Figma** but not very good.
- **Good** programming language: **Javascript family** (*typescript, node.js, react.js, react native...*), **Bash**.
- I **can also use** some other languages at basic level: **PHP, C, Java**.
- I am **good** at **MongoDB** and I just use MySQL at basic level.
- **Pretty good** with **Node.js Unit Test**.
- **Pretty good** use of **Docker**.
- **Pretty good** use of **CI/CD**(Github Action, Gitlab CI, Drone.IO...).

## Experience

### [6/2020 - 2/2022] - Blue Otter Corporation

*This is a startup with less than 15 members when I joined.*

Projects have joined or built alone:

#### [Frac.to](#)

- \_Increase revenue with more payment options. \_
- Team size: N/a
- Language: React.js, Node.js
- Experience:
  - ...

#### [Socicalum](#)

- \_A project that supports see analytics at views, likes, and follows of youtube urls, facebook status... and you are not the owner of the article. \_
- Team size: 1
- Language: React.js, Node.js
- Experience:
  - How to get data without through API.
  - ...

#### [Vintag](#)

- *A commercial construction site tool asset manager primarily focused on checking in and out tools through NFC*
- Team size: 8
- Language: Node.js
- Experience:
  - ...

### Cloudcath

- *The CloudCath Device and Patient Management System software tool enables dialysis providers to monitor their patients' state and progression in real-time.*
- Team size: N/a
- Language: React.js
- Experience:
  - Working with an oddly built Reactjs by Backend Developer.
  - How to maintain a project that I develop from others but without affecting their flow.
  - Working with a startup product whose day job is change spec .
  - ...

### Feastin

- *A product connecting restaurants.*
- Team size: N/a
- Language: React.js
- Experience:
  - Meetin with American customers and make them happy
  - ...

### Operativeunderground

- *A product to promote, sell offline classes via paypal.*
- Team size: 1
- Language: React.js [javascript], Node.js [javascript, firebase]
- Experience:
  - Build a project with firebase, redux and redux manage with firebase.
  - Pay by PayPal.
  - How to work alone in a small startup.
  - ...

### **[1/2019 - 6/2020] - Co-WELL**

*This is a company with 500 members.*

### Kakei+

- *A project money management with kakeibo.*
- Team size: 25-30
- Language: React.js [javascript]
- Experience:
  - Asynchronous handling to optimize server performance.
  - Calculating on the client some big problems like budget statistics without calling up the server.
  - Use react to import and export data.
  - ...

### **Application for buying and selling building materials**

- *client's internal application.*
- Team size: 6
- Language: React Native
- Experience:
  - How to identify codes in messages without user input.

- Use native base to code UI for both ios and android.
- ...

## Education

[2015 - 20xx]: **Study, study more, study forever**

- Completed some courses on udemy, github...

[2015 - 2019]: **Bachelor of IT at Danang University of Education**

- Students, member, secretary the school's executive committee.
- Learn the basics of algorithms, logic, office and more.
- Most of the soft skills I have

## My cool side project:

### Node.js

- Bot for <https://lnvs.net> [live] (*bot support for scrape data from some light novel site and add for website*)
- Api get link for <https://linkxin.net> [stopped] (*The API takes fshare, 4share, google drive, mediafire, meg0a... links and returns high-speed links with shortened links*)

### PHP/WORDPRESS

- <https://lnvs.net>
- <https://taimoi.com>

## Open Source

### Node.js

- Chevereto for js: <https://git.f97.xyz/chevereto>
- Pictshare for js: <https://git.f97.xyz/pictshare>
- Fshare SDK for node.js: <https://git.f97.xyz/fshare> or <https://www.npmjs.com/package/@f97/fshare>
- And more: <https://git.f97.xyz>

### React Native

- RNTemplate: <https://github.com/f97/RNTemplate.git>

### Bash

- SurVPS: <https://github.com/f97/survps.git> or <https://git.f97.xyz/f97/survps.git>

Basic knowledge of **C**, **Java** and more... :)))

## Extra Section

- Human Languages:
  - Vietnamese (*native speaker*)
  - English (*not so good*)
- Fact
  - I can support but don't want to support IT free.

- There are many hobbies (table tennis, taking pictures, image ditor, read manga, read light novel, writing poems, writing stories ...).
- In free time, I often watch create some project for ...
- I have a smart watch collection.
- I have used almost all linux distros on distrowatch with 4 years of experience in using linux. (Now, I'm using MacOS on Macbook and Ubuntu server with XFCE desktop environments on Raspberry Pi 4 and Hackintosh on ITX PC)
