Technical Experience

- By **default** I'm **fluent** in **HTML5** and **CSS3**.
- I can use **XD**, Photoshop, **Figma** but not very good.
- **Good** programming language: **Javascript family** *(typescript, node.js, react.js, react native...)*, **Bash**.
- I **can also use** some other languages at basic level: **PHP**, **C**, **Java**.
- I am **good** at **MongoDB** and I just use MySQL at basic level.
- **Pretty good** use of **Docker**.
- **Pretty good** use of **CI** and **Unit test** with javascript.

Experience

[6/2020 - 2/2022] - Blue Otter Corporation

This is a startup with less than 15 members when I joined.

In square brackets is the language I used when join project.

Projects have joined or built:

Frac.to
- _Increase revenue with more payment options. _
- Team size: N/a
- Language: React.js, Node.js
- Experience:
    - ...

Socicalum
- _A project that supports see alalytics at views, likes, and follows of youtube urls, facebook status... and you are not the owner of the article. _
- Team size: 1
- Language: React.js, Node.js
- Experience:
    - How to get data without through API.
    - ...

Vintag

- *A commercial construction site tool asset manager primarily focused on checking in and out tools through NFC*
- Team size: 8
- Language: Node.js
- Experience:
    - ...

    - ...

Education

[2015 - 20xx]: **Study, study more, study forever**

- Completed some courses on udemy, github...

[2015 - 2019]: **Bachelor of IT at Danang University of Education**

- Students, member, secretary the school's executive committee.
- Learn the basics of algorithms, logic, office and more.
- Most of the soft skills I have

My cool side project:

Node.js

- Bot for https://lnvs.net [live] *(bot support for scrape data from some light novel site and add for website)*
- Api get link for https://linkxin.net [stopped] *(The API takes fshare, 4share, google drive, mediafire, meg0a... links and returns high-speed links with shortened links)*

Open Source

Node.js

- Chevereto for node.js: https://github.com/chevereto
- Fsharedk for node.js: https://github.com/fsharedk
- And more: https://github.com/f97

React Native

- RNTemplate: https://github.com/f97/RNTemplate.git

Bash

- SurVPS: https://github.com/f97/survps.git
- Some script on https://gist.github.com/f97

*Basic knowledge of **C**, **Java** and more... :)))*

Extra Section

- Human Languages:

    - Vietnamese *(native speaker)*
    - English *(not so good)*
